TO WHOM IT MAY CONCERN

**APPROVED COMPETENT PERSONS IN TERMS OF REGULATION A19 OF THE NATIONAL BUILDING REGULATIONS**

We confirm that Mr Josef Julian du Plessis, Professional Engineering Technologist, ECSA Registration No. 9170137 was assessed and found to be generally recognized as having the necessary experience and training to:

- i) Undertake rational assessments or rational designs in the field of fire engineering, and
- ii) Undertake rational designs in the field of wet services

in terms of Regulation A19 of the National Building Regulations and SANS 10400 Part T and W respectively. This was based on the additional scope peer assessment of Mr du Plessis's conceptual knowledge, practical experience testing and understanding of the fire engineering standards and applicable codes of practice. Mr du Plessis's current registration as a Professional Engineering Technologist with ECSA is still in good stead.

With kind regards

Negletta Ndlovu  
**MANAGER: REGISTRATION**
